

SPLITROCK

JUMPING TOUR

5425 GREENWICH PIKE
LEXINGTON, KY 40511
859-252-3247

General

- Social distancing (6 feet between individuals) will be followed.
- All individuals, including SRJT staff and Officials, must wear a mask or face covering, except when mounted.
- Full-Color signage will be posted throughout the grounds regarding Social Distancing, Hand Washing, and other safety guidelines.
- SRJT has a property-wide PA system, and announcements regarding these guidelines will be made throughout the event.

Facility-Access

- Any person with known or suspected symptoms of COVID-19 or who has been exposed to a person with symptoms of COVID-19 (cough, shortness of breath, or fever) should follow self-quarantine protocol or be barred from or removed from the grounds.
- SRJT will place on each individual a wristband each day indicating that their temperature has been checked and are under the 99.5 temperature threshold.
- ALL SRJT Staff (Show Office, Food Service, Jump Crew Maintenance, Officials) will have their temperature checked upon arrival each day. Any staff member with a temperature of 99.5 or higher will be sent home.
- All Individuals entering the showgrounds will have their temperature checked daily, and will not enter the showgrounds if presenting with a temperature of 99.5 or higher.
- All Individuals enter the Show Office if not wearing a wristband will have their temperature taken by an SRJT Staff member. Anyone with a temperature of 99.5 will be asked to leave the show grounds.
- SRJT will set up an area where those staying in RV's and grooms staying on grounds can have their temperature check and given a wristband.
- SRJT has developed a COVID response plan that will be posted at the show office and followed in case of any individual [resenting with a fever or any other symptom(s) of COVID-19.

Facility - Sanitation and Bio-Security

- Individuals must stay 6 feet apart (Social Distancing) and must not congregate.
- SRJT will provide hand sanitizing stations throughout the premises.
- Restrooms will be cleaned and sanitized throughout the day.
- All touchpoints and common areas will be cleaned and sanitized frequently throughout the day.
- Foodservice is set up for "Take Away" dining.
- Markers indicating 6' "Social Distance" will be identifiable to all customers in line, and to employees who will maintain such distance whenever practicable.
- Seating will be limited. Tables and chairs will be set up to maintain as much distance as possible between tables to maintain Social Distance between groups. Tables, chairs, and other surfaces will be sanitized throughout the day.
- A new POS system as well as methods to order online or via text will be instituted to decrease person-to-person contact.

Daily Competition Schedule

- Time Schedule will be on the App each evening so exhibitors will know when their classes will be held. Orders of go will be posted to the app and followed in Ring 1, and course designs for both rings will also be added to the App. The app updates in real time for accurate information on each ring to reduce the need to check in at the ring.
- The App can also be used for add/scratching, ordering feed/bedding, and checking out on Sunday to reduce foot traffic in the office.

Schooling / Warm Up Areas

- Only two ground persons will be allowed on a warm up jump at any time.
- Sanitizing spray bottles will be at every jump.
- SRJT staff will institute a plan to clean and disinfect the parts of the jump most often touched, especially the jump cups.
- Cleaning/disinfection of jumps, especially jump cups, will be scheduled regularly.

Stabling Areas - Access

- Access to the Stabling Area will be restricted to Essential Personnel - veterinarians, equine caretakers (grooms), trainers and riders.
- Non-essential individuals (friends, family members, etc) should not enter the stabling area.
- Trainers should provide an ample quantity of gloves, masks, hand sanitizer and other cleaning/disinfecting products for their staff/customers for use while on premises.
- Trainers should monitor temperatures of all staff/customers.

Stabling Areas - Sanitation / Bio-Security

- Encourage handwashing or hand sanitization before entering the stabling area.
- Individuals should touch only the equipment and supplies necessary for completing tasks of caring for an exercising the specific horses.
- Do not share equipment between individuals - helmets, grooming supplies, tack, etc.
- Keep water buckets and feed buckets/tubs in a fixed position within the stall to ensure feed or water can be provided without touching or removing these items.
- Feed/bedding delivery by SRJT Staff will be made with as little contact as possible.

Recommended Cleaning/Disinfection

- According to the CDC, the coronavirus can survive in the air up to the three hours, on copper up to four hours, on cardboard up to 24 hours, and on stainless steel and plastic up to 72 hours.
- More specifically to barn/stable items, the virus can persist on nonporous materials (leather bridles/saddles/halters, nylon halters/lead ropes, gate latches, door handles, spray nozzles) longer than porous materials (cotton lead ropes, saddle pads).
- Clean communal leather tack daily with tack cleaner.
- Disinfect stall door handles, gate latches, cross-tie snaps, light switches, feed scoops, hose ends, spray nozzles, pitchforks, wheelbarrows, and other frequently handled surfaces regularly or after contact with personnel.
- Although there is no evidence that horses can contract or become ill from COVID-19, practice good hygiene by washing your hands or using at least 60% alcohol hand sanitizer after touching a horse, communal areas, or communal equipment to prevent environmental spread.
